

CHIAWANG STRUCTURAL ENGINEERING, INC

CHIAWANG YEH, S.E., LEED^{AP}

Principal

After earning a M.S. degree from Stanford University in 2002, Chiawang's career started in the Bay Area. In his fifteen-year structural engineering career, he has been involved in numerous projects in the U.S.A, China and South-East Asia. Specializing in high-rise building design, he has completed several high-profile projects in San Francisco ranging from 20 to 40 stories. In addition, Chiawang worked as an on-site structural engineer for the New Doha International Airport in Doha, Qatar opening in 2014. Chiawang was promoted to an associate with Louie International in 2014 and then went on to found Chiawang Structural Engineering in late 2016.
